# REBA range

Reba range, with its aluminium thin profile with only 50 mm, flexibility and minimalist light was developed to be in harmony with stylish and modern spaces without compromising the light. Continuous light lines can be arranged freely anywhere in the room, due to its optics and LOR > 50% REBA it can be used above office workstations, without annoying reflections on screens. The flexibility of REBA permits different applications such as

surface, suspended, recessed and wall mounted. Dimmable versions and different light sources such as LED and T5 and are also available.

**Areas of Application:** Commercial surfaces, businesses, public areas, offices, schools, hallways.
